Professional Art Conservators

Background
The City of Los Angeles, Department of Cultural Affairs (DCA) is the primary steward and agency responsible for the conservation, maintenance, and management of art and cultural assets acquired through its various programs. The City Art Collection contains more than 1,600 artworks—permanently sited and mobile, acquired through gifts, purchases, and long-term loans. The Public Works Improvements for Arts Program (PWIAF) is a City mandate that sets aside one-percent of the total cost of all construction, improvements, or renovation projects undertaken by the City for public art projects. Additionally, DCA is responsible for programming funds generated by the Arts Development Fee (ADF) Program for public art projects throughout the city.

The collection has grown to include murals, paintings, prints, sculpture; furniture, historical materials, ethnographic artifacts, architectural elements such as stained glass, or cast stone emblems; works on paper, and photographs that reflect the diversity of culture within Los Angeles. Most of the artworks are permanently-sited, integrated into the architecture and or free-standing.

This Request for Qualifications (RFQ) will enable DCA to create a Pre-Qualified list of up to twenty (20) conservators (including teams and/or firms) who demonstrate the professional capacity to advise on the maintenance of artworks, artifacts, and architectural elements, as well as conserve, examine, and provide preventative care treatments and recommendations for artworks.

Criteria
Experienced conservators, teams or firms must demonstrate the vision, past experience and professional qualifications required to assess artwork; prepare treatment reports; clean artwork; and advise on the procedures on the conservation and maintenance of artworks and architectural enhancements as well as perform the outlined scope of services. Additionally, examples of past work should conform to standards established by the American Institute of Conservation of Historic and Artistic Works as well as the United States Department of the Interior’s Standards for the Treatment of Historic Properties. Conservators who apply as a team must demonstrate both the qualifications of individual team members, as well as the team’s qualifications to work together on projects.

Categories
The Pre-Qualified list will be active for three (3) years, with the option to renew the list for an additional three (3) years. Selection will be based on demonstration of professional experience, strength of past work, experience, training, comprehensiveness of example proposal—research, presentation, and the appropriate-ness and professionalism of the condition assessment, treatment proposal, budget and timeline. Conservators will be evaluated based on each of their stated area(s) of specialization as shown below, and are not expected to exhibit expertise in all possible mediums.

- Sculpture / objects / furniture
- Wall murals / easel paintings
- Mosaics / ceramics / concrete
- Photography / works on paper
- Ledged art glass windows
- Electronic / digital media

Once selected, pre-qualified conservators, teams and/or firms will be eligible to develop proposals as conservation projects are initiated by DCA. Upon receiving a conservation project and throughout all project phases, each conservator, conservator team or conservation firm will be required to comply with City codes dealing with safety, accessibility, seismic and/or other issues, as appropriate for the project.
