As the year comes to a close, take time to explore the city's richly hued contemporary art scene, one that engages and inspires in these hectic times.

The Getty sponsored *Pacific Standard Time: LA/LA* is ongoing through January—there are 76 thematically connected exhibitions across Southern California exploring the work of Latino artists and the links between Latin America and Los Angeles.

At the Los Angeles Municipal Art Gallery in Barnsdall Art Park, *Condemned To Be Modern* features work by 21 artists who explore the history of modernist architecture in Los Angeles and the city's always evolving built environment.
